

1 SPECTRAL

Landsat

6 optical bands, 11 indices

MapBiomass

Land cover and previous-year mosaic

Probabilistic classifier

logistic regression

Burn probability

per pixel and date

2 TEMPORAL

Time series

all observations of the pixel

Annual summary of the series

per pixel and year

Annual metrics

high prob. - abrupt rise -
persistence - date

3 SPATIAL

Seeds

clearly burned pixels

Region growing

SNIC

Candidates

plausibly burned pixels

Object classifier

shape, size, vegetation

Fire scars

1.01 M fires, 1999-2025

PRODUCTS

Annual burned area

Month of burn

Frequency

Accumulated area

Year of last fire

Scar size

+ vector layer: each fire as a polygon, with its probability
